

Mid Model Exam
MVC Architecture

Structure:

Program code:

Users.js

```
const mongoose = require("mongoose");

const UserSchema = new mongoose.Schema({
  username: String
});

const UserModel = mongoose.model("users",UserSchema);
module.exports = UserModel;
```

Server.js

```
const mongoose = require("mongoose");
const express = require("express");
const cors = require("cors");
const UserModel = require("./models/Users.js");

const app = express();
app.use(cors());
app.use(express.json());

mongoose.connect("mongodb://localhost:27017/info");

app.post("/send", (req, res) => {
  const data = req.body.username;
  console.log(data);
  UserModel.findOne({ username: data })
    .then(result => res.json(result))
    .catch(err => console.log(err))
})

app.post("/insert", (req, res) => {
  const data = req.body.username;
  console.log(data);
  UserModel.create({ username: data })
    .then(result => {
      console.log(result)
      res.json(result)
    })
    .catch(err => console.log(err))
})

app.post("/delete", (req, res) => {
  const data = req.body.username;
  console.log(data);
```

```

    UserModel.deleteOne({ username: data })
      .then(result => {
        console.log(result)
        res.json(result)
      })
      .catch(err => console.log(err))
  })
})

app.listen(3001, () => {
  console.log("Server listening on PORT 3001");
})

```

App.js

```

import { useState } from 'react';
import axios from 'axios';
import './App.css'

export default function App(){
  let [name,setName] = useState("");
  let [display,setDisplay] = useState("");

  function sendData(){
    console.log("Sending Data....");
    axios.post("http://127.0.0.1:3001/send",{username:name})
      .then(res => (setDisplay(res.data?.username || "Not Found")))
      .catch(err => console.log(err))
  }

  function insertData(){
    console.log("Inserting Data....");
    axios.post("http://127.0.0.1:3001/insert",{username:name})
      .then(res => console.log(res))
      .catch(err => console.log(err))
  }

  function deleteData(){
    console.log("Deleting Data....");
    axios.post("http://127.0.0.1:3001/delete",{username:name})
      .then(res => console.log(res))
      .catch(err => console.log(err))
  }

  return(
    <div className='App'>
      <h1>MVC Architecture</h1>
      <input type='text' placeholder='Enter Name' onChange={(e) => setName(e.target.value)}
style={{display:"block",margin:"auto"}}></input>
      <button onClick={sendData} style={{margin:"15px"}}>Search</button>
      <button onClick={insertData} style={{margin:"15px"}} >Insert</button>
      <button onClick={deleteData} style={{margin:"15px"}} >Delete</button>
    </div>
  )
}

```

```
        <h2>{display !== "Not Found" ? display + " is Present " : "User not found"}</h2>
      </div>
    )
  }
}
```

App.css

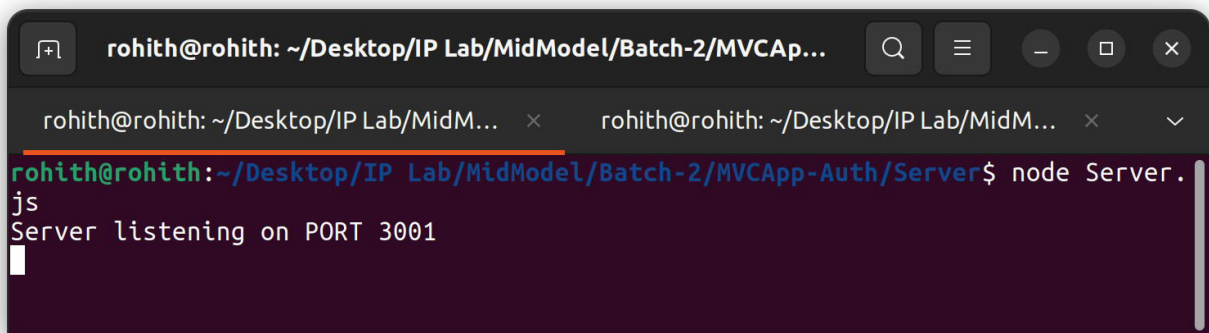

```
.App {
  text-align: center;
}
```

index.js

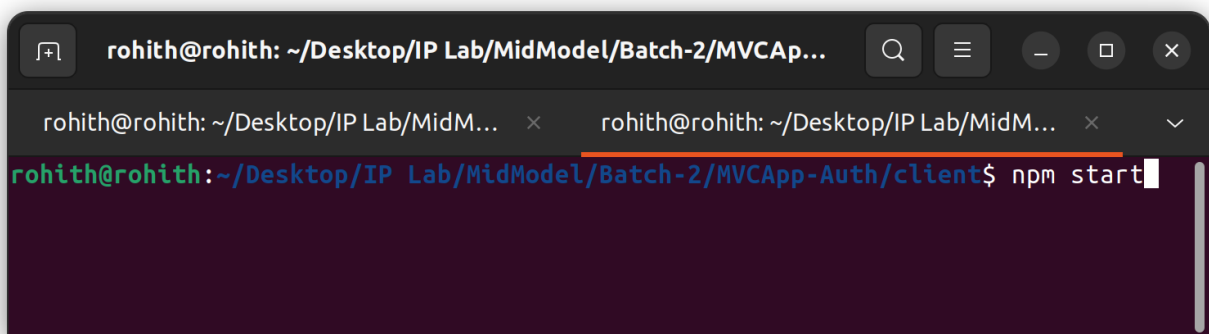

```
import React from 'react';
import ReactDOM from 'react-dom/client';
import App from './App';

const root = ReactDOM.createRoot(document.getElementById('root'));
root.render(
  <React.StrictMode>
    <App />
  </React.StrictMode>
);
```

Output:

A terminal window with a dark background. The title bar shows the file path: ~/Desktop/IP Lab/MidModel/Batch-2/MVCAp... The terminal shows the command 'node Server.js' being executed, followed by the output 'Server listening on PORT 3001'.

```
rohith@rohith: ~/Desktop/IP Lab/MidModel/Batch-2/MVCAp...
rohith@rohith: ~/Desktop/IP Lab/MidM... x rohith@rohith: ~/Desktop/IP Lab/MidM... x v
rohith@rohith:~/Desktop/IP Lab/MidModel/Batch-2/MVCAp-Auth/Server$ node Server.js
Server listening on PORT 3001
```

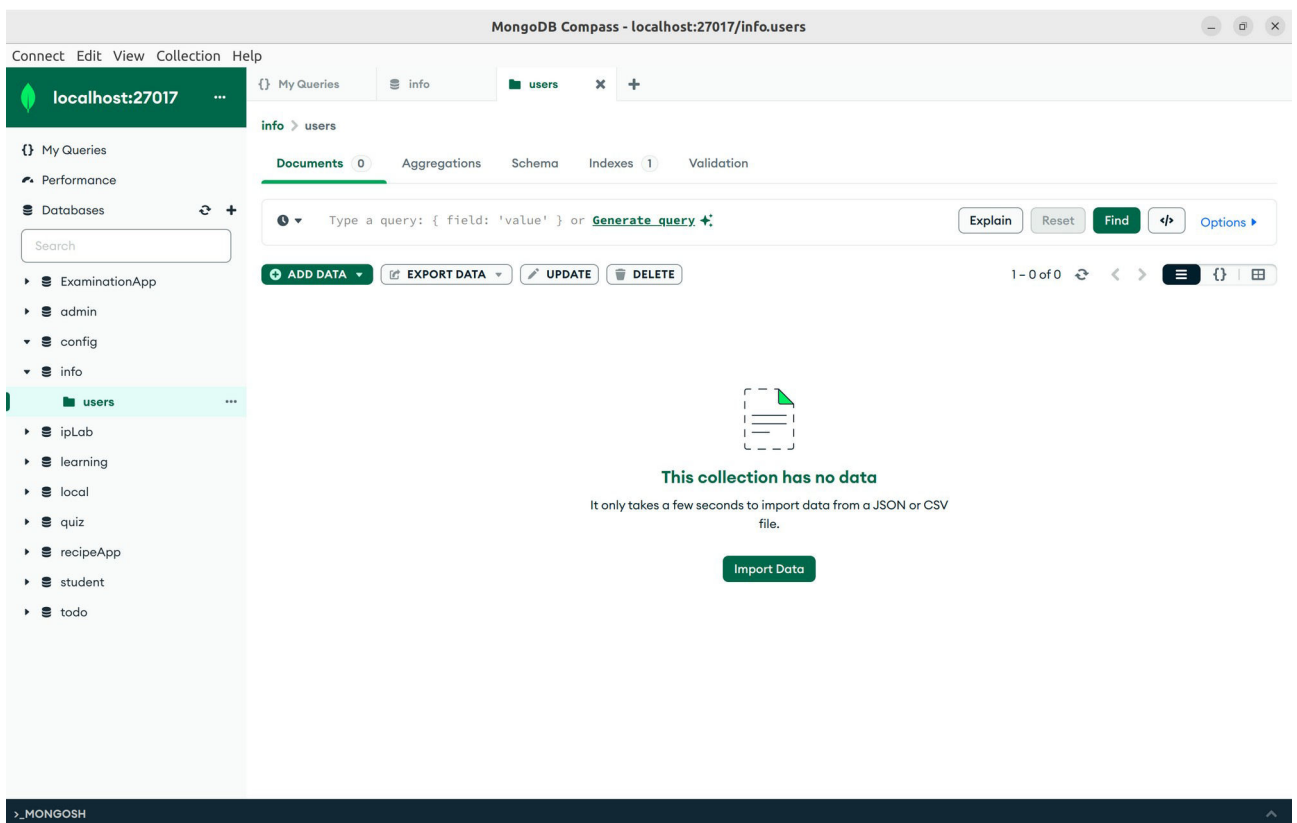

A terminal window with a dark background. The title bar shows the file path: ~/Desktop/IP Lab/MidModel/Batch-2/MVCAp... The terminal shows the command 'npm start' being executed at the client directory.

```
rohith@rohith: ~/Desktop/IP Lab/MidModel/Batch-2/MVCAp...
rohith@rohith: ~/Desktop/IP Lab/MidM... x rohith@rohith: ~/Desktop/IP Lab/MidM... x v
rohith@rohith:~/Desktop/IP Lab/MidModel/Batch-2/MVCAp-Auth/client$ npm start
```
